Jim,

Thank you for looking into this.

**Project update Tierra del Sol (Well B)**

We are setting the 50 foot, 10-inch sanitary seal this week and reaming the borehole to 10 inches to allow for lining with a casing. I will have a proposed well test plan submitted to you shortly for this well.

Cheers,  
Trey

Trey,

I looked in our database and found soil boring permits, monitoring well permits and destruction permits, but no production well permits for the four APNs provided below.

Jim Bennett, P.G. #7707, CHG#854

Jim,

Does the County have any well records for assessor's parcel numbers (APN) 612-091-1300, 612-030-1800, 613-030-2800 or 613-030-3500 (see attached map). There are several wells with 9-inch conductor casings located on the property with unknown production capacities.

Cheers,  
Trey
